

Description

CellerateRX® Surgical Activated Collagen® Powder is Type I bovine hydrolyzed collagen and contains no additives.

Indications

For use in the management of acute and chronic wounds, including surgical wounds, partial- and full-thickness wounds, traumatic wounds, venous stasis ulcers, arterial ulcers, diabetic ulcers, and first- and second-degree burns.

When to use CellerateRX Powder

Use CellerateRX powder on surgical wounds and moderately to heavily exudative wounds.

Initial Application

Cleanse the wound per facility protocol. Apply CellerateRX® Powder over the entire wound bed and the edges of the wound. Cover with an appropriate dressing. Infected wounds are treated per physician direction.

Reapplication

Reapply CellerateRX Powder 2-3 times per week or with each dressing change, taking care not to disrupt the wound site.

Contraindications

Known sensitivity to bovine collagen

- ⊗ Single use
- 📖 Consult instructions for use
- 📦 **STERILE** Sterile until opened
- ⊗ Do not use if package is damaged
- 🌡️ Store at room temperature
