

**DONJOY®**

**The X-Act ROM™ Elbow**

# Protect and Preserve. Precisely.

The X-Act ROM™ Elbow brace is a versatile, easy to apply, comfortable telescoping brace, allowing for ideal fixed or protected range of motion to help improve patient outcomes. The shape-to-fit formable aluminum cuffs and plush thermoformed pads contour this lightweight, open design to the patient's elbow, providing a precise fit following surgery or injury. Telefit technology and snap-to-fit buckles allow for ideal adjustment and comfort during rehabilitation.

**Custom Fit**  
All four cuffs telefit to size allowing for a more precise fit on any size patient—without impingement

**Swivel & Snap**  
Make it fit and make it fast with swivel action buckles that easily quick clip with one hand for a contoured fit

Easy to adjust telefit sliders for quick length adjustment and customized, precise fit.

The X-Act Rom Elbow brace ships flat for quick and easy application. Anti-migration material is integrated into thermoformed pads.

**Precise Protection**  
Single, lateral aluminum hinge design helps to maximize protection and minimizes brace weight. User friendly, preferred flexion ROM settings from -10° to 120° in 10° increments. Easy quick-lock allows for fixed/locked position from 0° to 90° in 15° increments.

Easy, shape-to-fit malleable bicep and forearm cuffs contour to the anatomy for a custom fit and minimal application time.

Snap-to-fit buckles for faster fit with no hassle.

**Maximum Comfort**  
Plush ComfortForm™ padding helps to maximize comfort for long-term wear

Supination/Pronation accessory provides the wrist with static stretch.
